Summary

Turning no's and maybe's into a clear is what I do.

I help empower my clients when they need:

- To build a great digital product that provides services that can bring a prominent change
- A Cloud Engineer to ensure that the infrastructure meets the demands of the organization's applications and services.
- A Full Stack developer who delivers more than just scalable, clean, and documented code.

You can contact me using any of the below:

Experience

Chief Technology Officer

CbSol

Jan 2021 - Present (2 years 3 months)

Team Lead

Train GRC Academy

Jun 2021 - Sep 2022 (1 year 4 months)

I have worked in Train GRC as a Team Lead

My main responsibilities were:

- To create the web platform for presenting the courses on trainingrc.com as well as on teachable
- Setting up a complex backend for cloud security groups and course enrollment
- Setting up the whole CI/CD using cloud formation and a couple of other AWS services
- Working with developers, and designers in my team along with QA's making sure everything goes perfect

Mobile Application Developer

Pabau Clinic Software

Sep 2018 - Jul 2019 (11 months)

I worked at Pabau CRM for a better period of a year and lead their mobile development there.

- Worked on building react native bridge with the web app for calendar booking.
- Build screens as per Figma and configured the transitioning manually for a smooth UX.
- Used GraphQL with Hasura and TypeScript for development.

-Contributed code to the Monorepo along with all test scripts.

Full Stack Engineer

Lingvano

Feb 2017 - May 2018 (1 year 4 months)

I worked in the Development team of Lingvano - A Sign Language Learning Platform and contributed to the front-end as well as the back-end capabilities.

- Built HTML, and CSS Templates for the email newsletter.
- Worked on React advanced concepts to build pixel-perfect UI
- Decreased redundancy in React components using some techniques
- Building authentication and user pool along with APIs for the app
- Worked on building functionality for the ASL dictionary module.

Education

COMSATS Institute of Information and Technology

Bachelor's degree, Computer Science

2014 - 2018
