Education

UET Lahore   Lahore, Punjab
BSc Mechanical Engineering   Dec-2019

BISE Multan   Multan, Punjab
FSc Pre-Engineering   Sep-2014

Experience

ORGANIZATION   Lahore, Punjab
MERN Stack Development Trainee   March 2023 – May 2023

- Developed an ecommerce website, a ToDo app, and an Expense recording app using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Collaborated with a team of trainees and senior developers to deliver high-quality projects within set deadlines.
- Participated in agile development processes, including daily stand-ups, sprint planning, and retrospectives.
- Applied best coding practices to ensure clean and maintainable codebases.
- Conducted thorough testing and debugging to deliver defect-free software.
- Collaborated with UI/UX designers to create visually appealing and user-friendly interfaces.
- Engaged in code reviews and provided constructive feedback to peers.
- Demonstrated strong problem-solving skills and adaptability in a fast-paced development environment.
- Communicated effectively with team members, stakeholders, and clients.
- Emphasized continuous learning to stay updated with the latest technologies and industry trends.

Personal Projects

- Ecommerce Website Using React Redux and Backend with Node js and Mongo DB
- ToDo App with React Context Api and Backend with Node js and Mongo DB
- WordPress Website for a Private Lable Brand (www.Mizpahlink.com)
- Created a website for a Psychiatric and Mental Health Clinic using html, css and js with SMPT (www.eabh.us)

Leadership & Activities
